# LUNATICSTOKEN

WHITEPAPER & ROADMAP

INTRODUCTION

Who We Are

Lunatics is a hyper deflationary token dedicated to help burn the supply of Luna Classic. Restoring some faith in the space we all love, so much.

We are a Community of Lunatics, dedicated to rewarding our holders and geared up to create an ecosystem that will help burn through the supply of Luna Classic.

Since our focus is to reduce the supply of Luna Classic, all our utilities will play a part in assisting those burns.

Unleashing our future

The core team and influencers supporting the project will dedicate themselves to create a safe and transparent place to invest. In a space where honesty and dedication cannot be taken for granted, Lunatics will prove what a community of like-minded people can achieve and be a catalyst to inspire other initiatives to reach our goal of decimating the supply of Luna classic.

MAKING A STAND IN THE CRYPTO WORLD

From the beginning we wanted to put together a project that not only burned, but also rewarded our holders with Luna Classic. Now with these rewards you can HODL them, sell them or you can even burn them. Helping burn even more of the supply. As a community we will take the lead, restoring faith and be a beacon of hope for all those hurt by the Luna crash.

OUR MISSION

From the beginning, we wanted to put together a project that not only burned, but also rewarded our holders with Luna Classic. Now, with these rewards you can HODL them, sell them or if you choose, you can even burn them. As a community we will take the lead, restoring faith and be a beacon of hope for all those devastated by the Luna crash.

Unleash Lunatics

Working with the #LUNC community to unleash Lunatics turning it into more than just a Meme token.
Building Trust

Our foundation begins with a Team that is built on mutual trust and respect. Influencers willing to put their name and their reputation behind the project. Together, leading the community and focusing on building a bright future and achieving our objectives, while always respecting your investment in Lunatics. Understanding, without you, the holder we are nothing.

Build Community

Build a bond with the community, creating a tangible atmosphere of respect, sharing, building, protecting and prospering.

Burning LUNC Supply

Lunatics is a hyper deflationary token dedicated to help burn the supply of Luna Classic. Restoring some faith in the space we all love, so much.

LUNATICSTOKEN.COM

After recent events we are committed to make a difference. As our utilities are developed and deployed, we will endeavour to constantly promote the Luna Classic Burn. We ourselves, have a dedicated burn wallet for true transparency within our community. We want to help the efforts, reaching out through our social community educating and taking lessons from what happened to Luna.

TOKEN SECURITY

Contract Audit

Our contract has been fully audited with ContractChecker and has been approved by them with no issues. Further audits will be performed soon.

With our contract developer, Krakovia, coding our contract and with safeguarding the community in mind. Tokens for future development and exchanges have been locked.

LP Lock

The Liquidity provided at launch will initially be locked for 1 year.
The contract auto generates 1% liquidity with every transaction.

Transparency & Security

Multiple layers of security and transparency have been implemented for investors peace of mind.

Multisignature for contract ownership, marketing & burn wallets. We also have a fully doxxed and KYC'd owner and a doxxed team
WHY BINANCE SMART CHAIN?

With Binance holding the majority of the Luna Classic Supply and with the low gas fees, the

Binance Smart Chain seems the obvious place to start this journey.

HOW WE ACHIEVE
OUR OBJECTIVES.

There is a 10% buy and sell tax on every transaction.

1%

of every transaction will be added to our LP. Strong LP will attract bigger investors.

1%

of every transaction will auto burn our own Lunatics Token, making it hyper deflationary.

2%

of every transaction will be added to marketing, to push and promote Lunatics to a wider audience.

4%

of every transaction will be rewards in Luna Classic for our holders.

2%

of every transaction will go towards burning and reducing the supply of Luna Classic.

These are the true taxes being paid out by our contract. We are having a small glitch that we hope to have a fix for shortly. Please understand it does not correlate to what is shown on BSC. But all figures can be fact checked on Bitquery

https://explorer.bitquery.io/bsc/token/0x2a48ece377b87ce941406657b9278b4459595e06/outflow
LUNA CLASSIC BURNS

With Luna being such a hot topic now and trending everywhere. We will be doing larger manual burns with the help of our Influencers. Creating as much hype around the project as possible. Our dead wallet, with our burned Lunatic tokens will also be automatically taking Luna Classic out of circulation while we allow it receives rewards.

After recent events we are committed to make a difference. As our utilities are developed and deployed, we will endeavour to constantly promote the Luna Classic Burn. We ourselves, have a dedicated burn wallet for true transparency within our community. We want to help the efforts, reaching out through our social community, educating and taking lessons from what happened to Luna.

** To date, Lunatics Token has burned over 550 million Luna Classic, which we sent to the burn wallet on Terra. Thus, removing those tokens permanently from supply. **

TOKENOMICS

TOTAL SUPPLY: 100 Billion

BURNED AT LAUNCH: 10 Billion

PRIVATE SALE 20%: 20 Billion *Vesting period will apply to private tokens*

PRESALE TOKENS 35%: 35 Billion

"YOU'RE WELCOME"

VESTING PERIOD FOR PRIVATE SALE HOLDERS

Private Sale Will Be Vested Over 9 Weeks

All Private Sale Tokens were locked at launch and our DEV Krakovia has made the contract, so it automatically releases the

Private Sale tokens on the timeframe specified below.

Private received their first airdrop allocation 7 days after launch, 29th July 2022.

Private Sale holders will have 10% of their remaining tokens automatically released every 14 days by the contract.

Private Sale holders will receive their last automatically generated airdrop of tokens on December 3rd, 2022.

SELLING RULES FOR LUNATICS PRIVATE SALE INVESTORS

Private Sale holders can only sell on upward trending chart, on the 2nd green candle on the 2-hour Chart.

Maximum sell per day is 25 million tokens. (Less than 1BNB on presale)

PENALTIES FOR BREAKING SELLING RULES

1st offence: Private Sale holders next 10% allocation will be burnt.

2nd offence: Private Sale holders remaining allocations due will be burnt. (Private investor will lose their whole bag.)
